

Atlantic

Safe and solid

UNCOMPROMISED VERSATILITY

The frame of the Atlantic parasol is made of high quality aluminum and stainless steel, which makes it extremely resistant to wind and changing weather conditions.

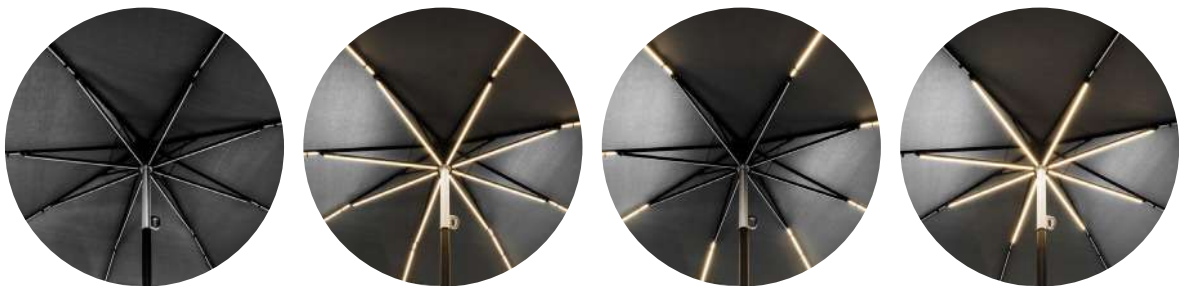

During the extreme endurance tests in the aerodynamic tunnel of the Aviation Institute in Warsaw, the opened parasol withstood wind speeds of over 100 km/h!

OCEAN OF POSSIBILITIES

We took care of the end-user's comfort even after sunset. Atlantic comes with an option of installing additional lighting in various configurations. This model can be ordered to come without lighting, with lighting only on the ribs or on the support ribs, or on both at the same time.

Our solutions allow you to create a unique atmosphere every evening.

REMARKABLY FUNCTIONAL

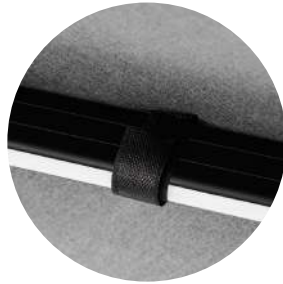

Mounting the umbrella in its base was designed to be simple. The mobile base has adjustable feet that allow the umbrella to be leveled on uneven terrain – the foot adjustment range reaches up to 40 mm.

Atlantic parasol is additionally equipped with a cover that provides protection when the umbrella's folded. The cover perfectly protects the canopy against changing weather conditions throughout the year.

The umbrella is available with and without a valance on which optional print can be placed.

Solid aluminium hinge

Additional Velcro strapping

Telescopic sheathing stretching system

Quick-mount canopy system

Parasol cover

Safety strap for fastening closed parasol

Hinged base tube for easy mounting

BASES

PDK 50 ATLANTIC
weight: 251,5 kg,
size:
1066 x 1066 x 140 mm

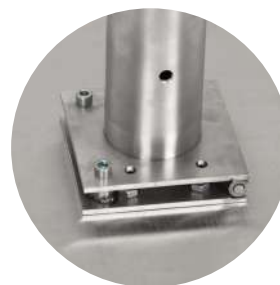

PDZ ATLANTIC
weight: 8,9 kg,
size:
300 x 300 x 880 mm

PDP 50 ATLANTIC BLACK
weight: 19,2 kg,
size:
500 x 500 x 284 mm

PDP 50 ATLANTIC SILVER
weight: 19,2 kg,
size:
500 x 500 x 284 mm

OUTSTANDING QUALITY

Every detail is made with great precision, bearing in mind the high quality of the parasol. We make every effort to ensure that each element we create meets the requirements of our customers, which is why we use only durable, high quality raw materials.

Strong aluminum hinges and additional fasteners provide not only extreme durability, but also improved aesthetics. The innovative cover stretching system is also a noteworthy solution. Only acrylic fabrics are used for the production of covers for these umbrellas.

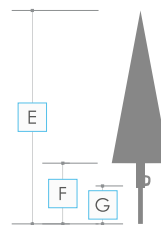

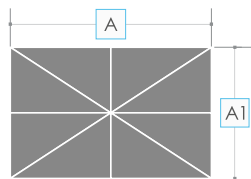

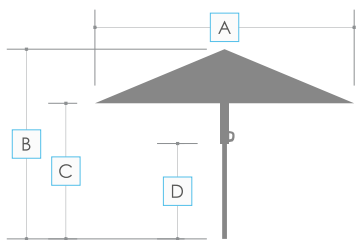

- durable mast for improved weather resistance
- strong aluminum arms resistant to gust of wind
